

7.5.1 Energy End-Use Intensities and Consumption of Educational Facilities, by Building Activity (1)

	<u>(1000 Btu/SF)</u>	<u>(10¹² Btu)</u>
Space Heating	32.8	254
Cooling	4.8	37
Ventilation	1.6	13
Water Heating	17.4	134
Lighting	15.8	122
Cooking	1.4	11
Refrigeration	1	8
Office Equipment	1.5	11
Other	2.9	22
Total	79.3	614

Note(s): 1) Educational Facilities include K-12 as well as higher education facilities.

Source(s): EIA, Commercial Building Energy Consumption and Expenditures 1995, April 1998, Table 1 for total energy consumption, Table 2 for energy intensities, and Table 4 for expenditures.
